NUIPELA KUK STOVE GROUP
PROJET INSAIT LONG PAPUA NUI
GUINEA

Dispela document em

Tasman Envirnomental Makets i redim

Bikpela tinkink blong dispela projet na bukim wantaim

Bipo dispela projet kamap long Papua Nui Guinea, plenti manmeri long ples i wok long usim piawut long kukim kaikai long drum or long ples pai blong kuk. Dispela nuipela kuk stove projet insait long Papua Nui Guinea em bai givim out kuk stove long ol manmeri long ol kominities. Dispela kuk stove i moa gutpela long kuk na em save usim liklik paiwut blong kuk. Dispela nuipela kuk stove bai senisim laip blong manmeri i kuk olsem long drum or long open pai ples.

Dispela projet bai Tasman Environmental Markets Asia Pacific (“TEM”) i bringim kam long kominities. TEM bai givim moa long 100,000 kuk stoves free igo long wanwan house insait long projet area. TEM tu i dedicatim dispela projet long kirapim sampela gutpela program long helpim manmeri long kisim skul long sait blong health, long stap hamamas na improvim life, climate change na sustainable developmen.

Bikpela wok annanit long dispela group projet em, dispela kuk stove bai senisim olpela pasin blong kuk olsem kuk long drum na pasin blong kuk long open pai.

Sustainable Developmen Objective(s)

Dispela projet bai helpim na strongim ol manmeri long wanwan haus long achievim sustainable developmen objectives:

Dispela projet bai givim strongpela heat blong kuk wei em usim liklik pai wood. Dispela wei bai helpim ol manmeri long usim natural resources and resources olsem non-renewable biomass olsem carbon-based fossil fuel long gutpela wei. (SDI12.2.2) Dispela nuipela kuk stove wei bai daunim woody biomass inap long mak blong ~3.53 tons long wanpela stove long one pela yia, long ol forest insait long kominities na increasim biomass antap long graun long dispela ol forests. (SDI15.2.1)

Wantaim dispela too bai helpim ol mama na pikinini meri long savim taim blong painim pai wood, karim or cutim daun ol diwai blong kisim pai wood long wei long haus blong ol. (SDI5.4.1)

Dispela projet bai senisim 100 000 drum stoves na ples blong kuk wantaim dispela nuipela kuk stoves. Wanpela bikpela samting dispela niupela kuk stove bai senisim em olpela wei blong kuk em bai daunim namba blong pai wood long kuk na too savim moni blong baim pai wood long maket. (SDI 1.1.1)

Dispela niupela kukstove too bai introducim nuipela technology long ol moa long 100 000 manmeri long wanwan haus i wok long kuk long drum stove na open pai ples long taim blong project life. (SDI7.1.2)

Dispeal projet too bai improvim health and life blong plenti manmeri taim ol kuk long dispela nuipela kukstove. Dispela stove bai daunim level blong liklik ol particles long air ol kolim

particulate matter (PM2.5) emissions long wanwan haus annanit long baseline emission level 4.79g/kg fuel (or 93.35 mg/min⁴) (SDI 3.9.1)

Wantaim ol antap points, dispela project too bai improvim food security na nutrition blong ol manmeri long kominiti na pikinini na ol meri too. Dispela projet bai helpim long kukim gutpela kaikai, savim taim blong painim pai wood na time blong readim kaikai blong kuk. (SDI2.1.1)

Taim dispela projet i stat bai providim wok opportunity olsem taim blong givim out dispela ol kuk stoves na taim blong monitorim na maintenance. Dispela bai givim long time wok long ol kominitities long kainkain manmeri. Dispela project ino nap wansait long man tasol or meri tasol or lapun or youngpela or leg nogut, ear pas or eye nogut. Dispela project bai luk save long olgeta manmeri olsem wankain. (SDI8.3.1 and SDI8.5.1)

Long taim dispela projet kreatim wok blong ol kominiti, TEM olsem papa blong dispela projet bai givim training long ol vocational skills through long non formal edukesin na lanim ol life skills training climate change na training blong kuk stove distribution na monitoring annanit long verified carbon standards (VCS). (SDI4.3.1)

Blong pinisim olgeta tok, dispela projet bai contribute long daunim Green House Carbon emission (GHG) olsem ~7.2 tCO₂ taim wanpela kukstove i senisim olpela pasin blong kuk olsem usim drum na open pai ples long taim blong dispela project life or crediting period. (SDG 13).

Project Location

Long GPA wei bai dispela projet givim ol dispela kuk stoves em insait long Projet boundary long PNG (Latitude: 6.3150° S Longitude: 143.9555° E). Projet bai stat long Highlands long four pela provinces (Figure 1): Southern Highlands Province (SHP), Western Highlands Province (WHP), Jiwaka Province (JP) na Eastern Highlands Province (EHP).

Implementation Schedule

Date	Milestone(s) in the Project's Development and Implementation
31/01/2023	Konsultation wantaim Climate change na Development Authority (CCDA) long project design na Local Stakeholder Konsultation.
31/01/2023	Konsultation wantaim PNG Forestry Authority (PNGFA) long project design na Local Stakeholder Konsultation.
13/03/2023	Local Stakeholder Konsultation wantaim Southern Hailens Province
15/03/2023	Local Stakeholder Konsultation wantaim Western Hailens Province
17/03/2023	Local Stakeholder Konsultation wantaim Jiwaka Province
20/03/2023	Local Stakeholder Konsultation wantaim Eastern Hailens Province
	Listing blong project annanit lng VCS program
	Applicasen blong project annanit long SDVista Standard
	Project stat date: Stat blong Project activities wantaim Kuniokoa Cookstove distribution na installation
	Plan blong taim blong pinisim distribution blong niupela kuk stoves
	10- yia projet crediting period
